

To Whom It May Concern:

It has come to my attention that our local Christian radio station, KLOVE on 94.7 and 94.9, may be canceled by the FCC due to LPFM. I would like to express my deep concern regarding this action and let you know how grateful we are to have a station like KLOVE. Our family listens exclusively to KLOVE. It is the only station on the air that is safe for our whole family to listen to without fear of the content of the music or DJ. We receive our news and current events, local church events, concerts, and national conferences coming to our area. The station also provides prayer support to listeners every day, several times a day. I can't tell you how valuable and vital this is to us and our community. We believe in the mission of KLOVE to the point that our family financially supports the station to the best of our ability. In our society there is rising concern that various forms of media influence our children's and our own behavior. KLOVE is the only station on the air in our city that contains strictly positive content. There is no rude language, perverted lyrics, or violent content expressed by any individual on the air or in any song. I ask you therefore not to remove the only good media influence on our children today.

Sincerely,

Brandon Riggan
